

Richard Mark H. Adlawan

CHIEF MATE CoC (UNLIMITED, OCEANGOING), MANAGEMENT LEVEL STCW II/2
Currently **2nd Officer**, MV FG Eucalyptus (Supramax Bulk Carrier, 50,011 DWT, Singapore Flag)
Talisay City, Cebu, Philippines

PROFESSIONAL SUMMARY

Seeking Chief Mate positions on bulk carriers; open to 2nd Officer roles with a confirmed onboard promotion pathway to Chief Mate. 3+ years’ officer watchkeeping across container vessels and bulk carriers, every contract below verifiable against the MARINA register. Builds and maintains the offline calculation software in use on his own bridge – draft survey, cargo and ballast planning, voyage reporting – because shipboard tools have to work with no connection at all.

SEA SERVICE

VESSEL	TYPE	RANK	PERIOD	DURATION
FG EUCALYPTUS	Supramax Bulk Carrier	2nd Officer	07 Feb 2026 – present · Contract to Oct 2026	6m 28d
CL BANYAN	Panamax Woodchip Carrier	2nd Officer	13 Sep 2024 – 12 Aug 2025	10m 30d
JACK LONDON	Panamax Container Vessel	2nd Officer	12 Feb 2024 – 05 Apr 2024	1m 24d
JACK LONDON	Panamax Container Vessel	2nd Officer	01 Apr 2023 – 02 Oct 2023	6m 02d
JACK LONDON	Panamax Container Vessel	3rd Officer	09 Mar 2022 – 27 Oct 2022	7m 20d
JACK LONDON	Panamax Container Vessel	3rd Officer	11 Dec 2020 – 12 Jul 2021	7m 01d

Vessel particulars – FG EUCALYPTUS: IMO 9942172, built 2023, 50,011 DWT, LOA 200 m × 32 m, Singapore flag. CL BANYAN: IMO 9936836, built 2023, 71,033 DWT / 57,541 GT, LOA 215 m × 37 m, Singapore flag. JACK LONDON: IMO 9431812, built 2010, 4,250 TEU / 50,278 DWT, LOA 261 m × 32 m, Liberia flag.

Total as 2nd Officer: **2y 1m** Total as 3rd Officer: **1y 2m** Total officer seetime: **3y 4m**

Durations are actual days aboard, derived from the sign-on and sign-off dates. MARINA records sea service in fixed 30-day months, so the official register shows marginally lower figures.

CERTIFICATIONS

- CoC Chief Mate (Management Level, STCW II/2), Unlimited / Oceangoing, MARINA (issued 13 Feb 2026; valid to 13 Feb 2031; no limitation)
- CoC Officer in Charge of a Navigational Watch, MARINA (issued 16 Oct 2025; valid to 16 Oct 2030; no limitation)
- Deck Management Level: theoretical examination passed, practical assessment completed (Jan 2026)
- Management Level Course, Marine Deck Officers, Functions 1, 2 & 3 (2025)
- Bridge Team & Resource Management (BTRM) (Dec 2025)
- GMDSS General Operator’s Certificate (issued 16 Oct 2025; valid to 16 Oct 2030; no limitation)
- Basic Training (issued 14 Jan 2026; valid to 16 Oct 2030)
- Survival Craft & Rescue Boat, other than fast rescue boat (issued 16 Oct 2025; valid to 16 Oct 2030)
- Advanced Fire Fighting (issued 16 Oct 2025; valid to 16 Oct 2030)
- Medical Care (MECA) (issued 10 Mar 2023; no expiry)
- Medical First Aid (MEFA)
- Ship Security Officer (SSO), Certificate of Proficiency (issued 17 Mar 2023; no expiry)
- ISPS Security Awareness / Designated Security Duties
- ECDIS Generic + type-specific (JRC, Furuno)
- Singapore (MPA) Certificate of Endorsement
- Philippine Passport, SIRB, Yellow Fever
- PEME: Fit for Duty (valid to Dec 2027)

MARINA-issued certificates verifiable against the Philippine Maritime Industry Authority record under SRN 8712140002. Training completed with PROTECT, New Simulator Center of the Philippines, EXACT, PHILASIA and IMPAC.

EDUCATION

- **University of Cebu, Maritime Education and Training Center (UC-METC)** (college; graduated 2008)

BRIDGE & NAVIGATION COMPETENCIES

Passage planning: Berth-to-berth planning and execution, worldwide trading: ocean passages, archipelagic waters, high-density TSS (Singapore Strait, Malacca), Australian and East Asian coastal waters.

ECDIS: JRC and Furuno (route planning, safety contour management, chart/permit updating, alarm management).

Radar / ARPA: JRC and Furuno (collision avoidance in restricted visibility and heavy traffic).

Compass management: Gyro and magnetic: daily error observations (azimuth/amplitude), deviation records, compass error logs.

MSI management: GMDSS/NAVTEX/SafetyNET EGC monitoring, NAVAREA warning indexing and route-relevance analysis.

Weather: Weather routing liaison, heavy-weather passage planning, tropical cyclone avoidance.

Publications: Nautical publications and chart correction management.

CARGO & DECK OPERATIONS

Cargo experience: Woodchips, tapioca chips, dry bulk (Supramax), containerized cargo incl. reefer container monitoring.

Cargo watch officer: Sequence monitoring, ballast/deballast coordination, trim/draft management, air draft control.

Draft surveys: To 0.5 cm precision with heeling and draft-list corrections (initial/intermediate/final).

Daily Progress Reporting: Period-based load/discharge rates, cargo remaining, ETC projections.

Hold preparation: Grain-clean and charterer's standard per voyage instructions; hold inspections. Hatch covers (folding type): operation, weathertightness maintenance, hose testing.

Loading computers: OEC LOAD-MASTER, CLOUD: condition planning, stress/stability verification against approved Loading Manual; manual stability verification using vessel hydrostatic tables.

SAFETY & COMPLIANCE

Record: Zero incidents across all contracts; all contracts completed in full.

PSC inspections attended: Australia (AMSA), Vietnam, Philippines.

Designated Medical Officer (2/O): Medical stores to Singapore flag Scale A (MLC 2006), controlled substances custody, expiry auditing, requisitions.

Drills: Led and conducted shipboard drills (fire, abandon ship, enclosed space rescue, MOB) under Master's oversight.

Compliance: Risk assessments and permit-to-work compliance (enclosed space, hot work, working aloft); ISM Code shipboard implementation, SMS compliance.

TOOLS & PROJECTS (SHIPBOARD SOFTWARE)

- **Cargo Loading/Discharge Suite:** offline single-file apps in active bridge use: stowage calculator, DPR with period-based rates, draft readings, heeling calculator, daily cargo log with messaging-app report export.
- **Draft Survey:** full survey engine to 0.5 cm precision: draft corrections, heeling and trim, hydrostatic interpolation, initial/intermediate/final with document export.
- **Ballast Voyage Planner:** tank-by-tank ballast planning with sounding interpolation, fore and aft distribution, and condition summaries.
- **Noon Report Guide:** live voyage progress tracker: DTG, average speed, ROB, consumption.
- **EGC Warning Reader:** automated parser/organizer for Inmarsat-C SafetyNET printouts (7-tier categorization, ZIP import).
- **MSI Index Log Pipeline:** automated NAVAREA X/XI and AUSCOAST warning index logs (Word document generation).
- **Medical Inventory System:** Scale A compliance workbook: expiry tracking, requisition generation.

LEADERSHIP & MENTORSHIP

Training: Trained and mentored deck cadets and junior officers in watchkeeping, cargo operations, and bridge equipment.

Promotion support: Directly mentored fellow seafarers through promotion to 3rd Officer and 2nd Officer ranks.

CONTACT

Email and direct contact details available on request. Home base: Talisay City, Cebu, Philippines.
